July 27, 2005

Amphitheater program to highlight deer management at Raystown Lake Correction - Starting time at 7:00 p.m.

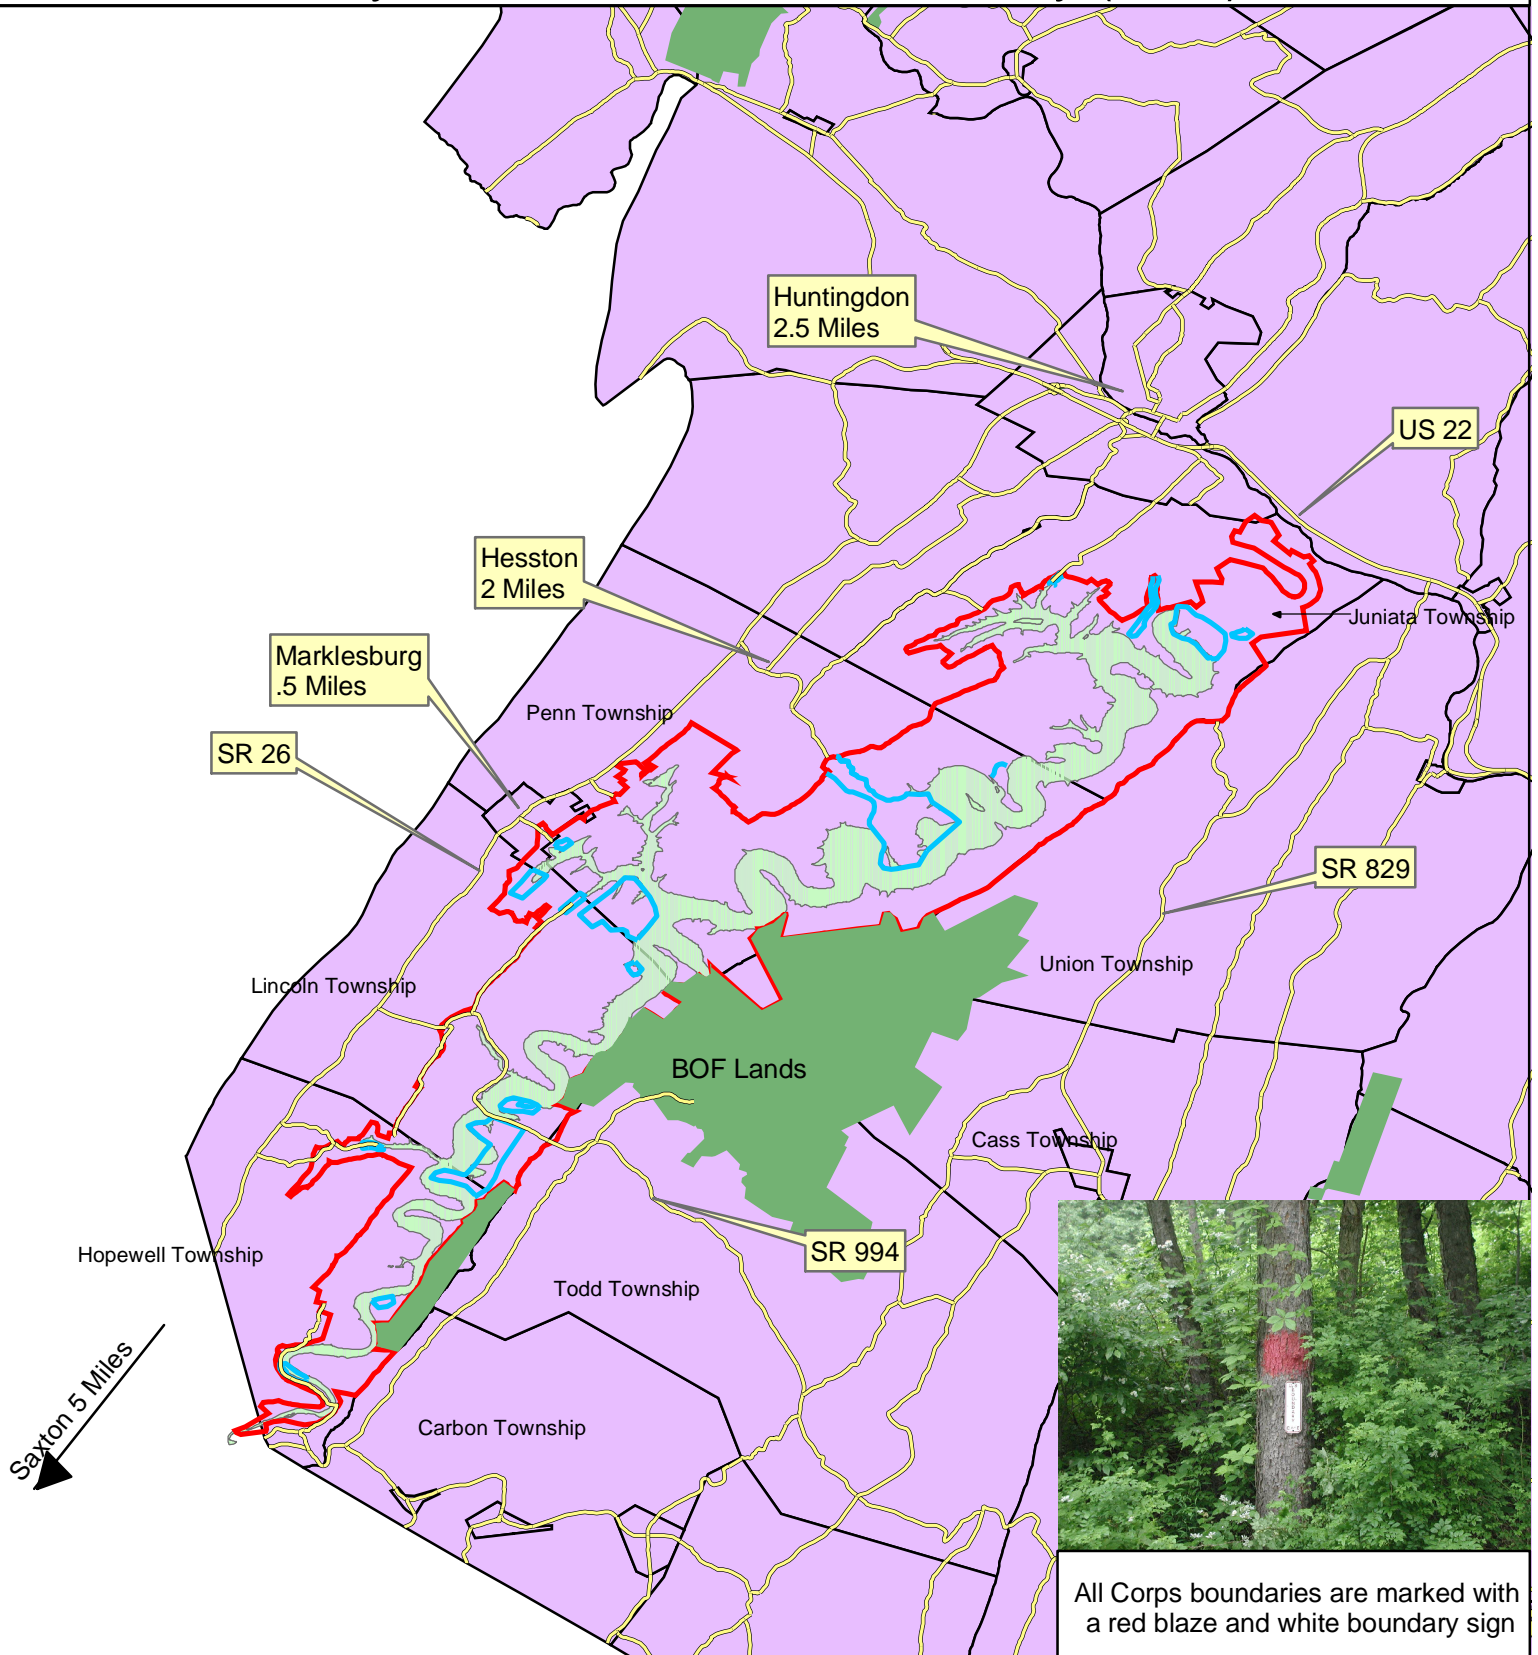

The Raystown Lake Natural Resources staff will present a program about deer management at Raystown Lake at the Seven Points Amphitheater Friday, August 12, at 7:00 p.m.

The program will include the results of the past two years of infrared aerial imaging deer surveys and the Pennsylvania Game Commission's Deer Management Assistance Program harvest results. Changes to the 2005 DMAP, hunting access and gate openings, along with descriptions of habitat programs that are improving habitat for deer will also be discussed.

For more information, call wildlife biologist Jeff Krause at (814) 658-6813.
